The Animal Welfare Regulations 2018

Dear Bishopston Veterinary Group

RE: The Animal Welfare (Licensing of Activities Involving Animals) (England) Regulations 2018

Preventative Healthcare Plan for Business providing the following boarding activities.

- Boarding Kennels for dogs
- Catteries
- Home Boarding of Dogs
- Day care for dogs

As a licensed and insured provider of dog boarding and day care under the above legislation we are required to operate as per the required licence conditions.

One of the licence conditions is to provide a 'Preventative Healthcare Plan' in accordance with our business.

Please could I ask that by signing this letter that you agree that you are my business' nominated Veterinary Practice with which I am registered; in addition, you are signing to confirm that you are able to treat and / or isolate any dogs, as required, that are in my care as part of my boarding and day care business.

In the event of the death of a dog, I would ask your practice to cold store the body upon the owner's return.

In the event of an infectious disease, I would ask your practice to provide an isolation area until such disease is brought under control and /or upon the return of their owners.

In the event of any of the above, the owners will have been contacted and will have pre-signed my veterinary release form. This gives me permission to seek care for their dog at a nominated Veterinary Practice. I would supply their owners' written consent form, their own vet's details and an up-to-date copy of their dog's vaccination records.

I confirm that all animals boarded as part of my business are fully vaccinated and have been treated for parasites in accordance with veterinary recommendations. I operate as per the procedures and conditions set out in the regulations.

If you agree to this please could you sign this letter and return to me via email or post, or alternatively I can collect the letter at a convenient time for yourself.
